DETAILED ACTION

Response to Arguments

Applicant's arguments, filed 01/05/2006, with respect to the rejection of claims 1-19 have been fully considered and are persuasive. The various rejections of claims 1-19 have been withdrawn.

Allowable Subject Matter

Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor suggest, in the claimed combination, a micromechanical relay comprising a substrate with a source contact, a gate contact and a pair of drain mounted there on; and a metallic deflectable beam including, a metallic conductive beam body having a first end and a second end, said first end of said metallic conductive beam body being attached to said source contact, said metallic conductive beam body extending substantially in parallel to said substrate such that said second end of said metallic conductive beam body extends over the drain contacts, a beam contact overhanging said drain contacts, and an insulator positioned between said second end of said metallic conductive beam body and said beam contact to join said second end of said metallic conductive beam body to said beam contact and to electrically insulate said metallic conductive beam body, said beam contact, and said insulator forming stacked planar layers.

Application/Control Number: 10/694,262

Art Unit: 2832

Any comments considered necessary by applicant must be submitted no later

Page 3

than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on

Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Bernard Rojas whose telephone number is (571) 272-

1998. The examiner can normally be reached on M-F 8-4:00), every other Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Elvin G. Enad can be reached on (571) 272-1990. The fax phone number

for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the

Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free).
